Forecast For Wales
Issued by Met Office Exeter
at 0400 on Wednesday 10 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy for most with spells of rain and drizzle.

Today:
It will be rather cloudy day today with outbreaks of rain and drizzle and with fog shrouding the hills. Northern areas however will gradually turn drier and brighter during the afternoon. Light winds for all and remaining mild. Maximum temperature 14 deg C (57 deg F).

Tonight:
The far north should remain dry with some clear spells overnight, but elsewhere the cloudy and damp weather will continue, although any drizzle will become light and patchy by morning. Minimum temperature 6 deg C (43 deg F).

Thursday:
A few bright spells in the north at first on Thursday, but otherwise it will be a rather cloudy day, with the odd spot of drizzle at times. Maximum temperature 14 deg C (57 deg F).

Outlook for Friday to Sunday:
Breezy on Friday with spells of rain at times. Largely dry with bright or sunny spells on Saturday. Cooler and breezy on Sunday but mainly dry with some sunshine.
